

MAY 4 2023

12H30 - 13H30 – VIRTUAL FORMAT (WEBEX)

STRAIN – Work-related stress among health professionals in Switzerland: It is all about the leaders.

As a part of the SCOHPICA (Swiss COhort of Health Professionals and Informal Caregivers) cohort symposium series, we are pleased to invite you to the conference presented by

DR. CHRISTOPH GOLZ

*Head of innovation Field Healthcare – Personnel Development,
Department of Health Professions
Bern University of Applied Sciences*

The STRAIN study was an intervention study with data from a total of 19'000 health professionals. Within this framework, a training program for managers was developed and evaluated. The results show what the main reasons are for leaving the profession early and where to focus. Results and recommendations are available [here](#). In the follow-up project STRAIN II, organizations can implement and evaluate recommendations
